

Patch Placement for Academic/Athletic Jackets

To the left, you will see the standard placement of the various patches you have earned. The numerals normally are placed on the right chest while the “BD” letter is placed on the left chest (over the heart). Chevrons are sewn to the sleeves while most other patches are sewn to the back.

If the name is embroidered on the jacket, it is usually located over the numerals. Also, with the new Mother Teresa Service Award (The Tuffy patch), many students are placing it on the front of the jacket, under the numerals so that it is readily visible.

Remember, receiving this jacket is an honor, while wearing this jacket is a legacy! When a student wears it, he/she represents 50 years of Bishop Dwenger alumni, faculty, staff, supporters and students. Make the entire community proud!
